The database developed in Oracle that maintains data on student and teacher enrollment demographics and vocational course information from the public school divisions. The database stores career, technical education class enrollments by ethnicity and gender. The data are used to determine the number of students participating in Career and Technical Education courses as well as full-time equivalent teachers for Standards of Quality funds. The data are collected by teacher by class period and contains enrollments based on gender, ethnicity, and co-operative education participation. Sub-population participation and completers are also reported by program area.

There are restrictions on public access to information in the database because of personal data that is maintained.

Note: Specific information relating to data fields, record/table layouts, and known restrictions to public access is maintained by the public body. Please contact the point of contact noted in Item 4 for further details.
